### **Case In Point Complete Interview**

A question I've been asked a lot lately is, "How do I make use cases work in an agile setting?" I found myself struggling for an answer because a) agile is a mindset not a methodology and b) I didn't think there was anything about use cases that prevented them from being used in an agile setting. So just do it.

9. What is Gap Analysis? Answer: Gap Analysis is a technique to analyze the gap between the existing system and functionalities, and the targeted system. Here gap means the amount of task or change that may be required to get the intended result. It's a performance level comparison between the present and the proposed functionalities.
