There has been a spate of articles and reports recently about the increasing importance of critical thinking skills for future employment.. A 2015 report by the Foundation for Young Australians ...

What is critical thinking? And do universities really ...

For long-term success in school, business and life, learning HOW to think is far more important than learning WHAT to think.. Yet rather than serve as the core of any education worthy of a rational human being, we have relegated the teaching of logic, argument analysis and critical reasoning to specialty courses in universities that reach too few students, too late in their education.
