Start a chain reaction, or introduce non-radioactive isotopes to prevent one. Control energy production in a nuclear reactor! (Previously part of the Nuclear Physics simulation - now there are separate Alpha Decay and Nuclear Fission sims.)

Nuclear Fission - Fission | Chain Reaction | Atomic Nuclei ...

Flinn Scientific is the #1 source for science supplies and equipment both in and outside the classroom. For more than 40 years, Flinn has been the "Safer Source for Science."

Flinn Scientific

The Virtual Lab is an online simulation of a chemistry lab. It is designed to help students link chemical computations with authentic laboratory chemistry. The lab allows students to select from hundreds of standard reagents (aqueous) and manipulate them in a manner resembling a real lab. More information and offline downloads. Please scroll below to find our collection of pre-written problems ...

ChemCollective: Virtual Labs

1. Introduce the structure of proteins, using a pipe cleaner. Twist the pipe cleaner into a coil and then "coil the coil" upon itself. Illustrate the concept of lock and key by showing how a

The Effects of Heat and Acid on the Enzyme Catalase

Recommendations for Students and Parents. Chemistry can be a very challenging class for some of our students. We have a larger proportion of the student body taking chemistry than any other public school in the area.

Allergies, also known as allergic diseases, are a number of conditions caused by hypersensitivity of the immune system to typically harmless substances in the environment. These diseases include hay fever, food allergies, atopic dermatitis, allergic asthma, and anaphylaxis. Symptoms may include red eyes, an itchy rash, sneezing, a runny nose, shortness of breath, or swelling.

Allergy - Wikipedia

Heat is an important component of phase changes. This lesson will delve into the concept of latent heat and how it affects of the behavior of matter during phase changes.

Latent Heat: Definition, Formula & Examples - Study.com

Please review the FAQs and contact us if you find a problem. Credits: 1 Prerequisite: Algebra 1, High School Biology Recommended: 11th Test Prep: CLEP This course covers the basic material for a high school chemistry course. The CLEP covers two years worth of material. Those wishing to take the CLEP will have to do...

Chemistry with Lab - Easy Peasy All-in-One High School

Prepare for a career in applied engineering. Develop an understanding of the latest technologies. The School of Technology at Michigan Technological University offers crazy smart students opportunities and experiences to create the future.

School of Technology | Michigan Technological University

4 *P41652A0412* 2 An experiment to determine the enthalpy change of reaction between aqueous copper(II) sulfate and zinc was carried out as follows. 1. 50.0 cm³ of copper(II) sulfate solution, of concentration 1.00 mol dm⁻³, was placed in a polystyrene cup. 2. The temperature of the solution was measured with a 0 - 110 °C thermometer

Write your name here Centre Number Candidate Number ...

Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.
