Torchship (or torch ship) is a term used by Robert A. Heinlein in several of his science fiction novels and short stories to describe fictional rocket ships that can maintain high accelerations indefinitely, thus approaching the speed of light. The term has subsequently been used by other authors to describe similar kinds of fictional spaceships. ...

Isaac Asimov's Short Fiction: Science Fiction and Fantasy

Writing Together . by Lisa Tuttle. Writing has been described as a lonely business. Most writers actually like it that way, thank you very much, but still there is that restless urge to share which leads to collaborations, shared worlds, theme anthologies, and round-robin stories. If fantasy and science fiction writers are more prone to this than writers in other fields, maybe that's because ...

Of main interests to us is the use of mining as a part of in-situ resource utilization, that is: making it easier to industrialize and colonize space by removing the need to pay the sky-high delta-V cost of lugging raw materials up Terra's gravity well.. But in the early stages, asteroid mining start-ups cannot be established to provide minerals to space industrialization because there won't ...

The space environment is so inconvenient for human beings. There is so much that one has to bring along to keep them alive. Life Support has to supply each crew member daily with 0.0576 kilograms of air, about 0.98 kilograms of water, and about 2.3 kilograms of (wet) food (less if you are recycling).Some kind of artificial gravity or a medical way to keep the bones and muscles from wasting away.
