Reactance is an unpleasant motivational arousal (reaction) to offers, persons, rules, or regulations that threaten or eliminate specific behavioral freedoms. Reactance occurs when a person feels that someone or something is taking away their choices or limiting the range of alternatives. Reactance can occur when someone is heavily pressured to accept a certain view or attitude.

Reactance (psychology) - Wikipedia

Our life can quickly pass us by when we're not focused on what matters. We have a bad habit of emphasizing the negative and overlooking the positive. Being mindful can help. Mindfulness is a ...

In psychology, a first impression is the event when one person first encounters another person and forms a mental image of that person. Impression accuracy varies depending on the observer and the target (person, object, scene, etc.) being observed. [unreliable medical source?] First impressions are based on a wide range of characteristics: age, race, culture, language, gender, physical ...

The Hindsight Bias Definition and Example

STJ (introversion, sensing, thinking, judgment) is a four-letter code representing one of the 16 personality types found on the Myers-Briggs Personality Indicator (MBTI). People with an ISTJ personality type tend to be reserved, practical and quiet. They enjoy order and organization in all areas of their lives including their home, work, family, and projects.

ISTJ Personality: Characteristics, Myths & Cognitive Functions

Exercises for Boosting Judgment. Play devil's advocate on an issue that you have strong opinions about. Examine a past event that you are not happy with (not following through with a goal) and

brainstorm ideas for other ways that you could have approached that event/activity.
